The **Pacific Life Community** is a network of people who are committed to ending nuclear weapons and war-making through non-violent direct action along the Pacific Rim in collaboration with the global peace movement. The PLC includes communities based in the Catholic Worker and other radical discipleship and peacemaking traditions from the Rockies westward into the Pacific.

Nevada Desert Experience is an interfaith organization that invites people to the Nevada Test Site to pray and protest for nuclear abolition. At a time of increasing nuclear danger, we witness for an end to subcritical nuclear testing in a desert that has been bombed nearly 1,000 times.
